Requestor's Position Summary: "...in accordance with CCI editing, modifier -59 was appended to these services due to significant changes in multiple compartments of the knee..."

Amount in Dispute: \$2,116.19

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The provider fails to properly adjust the rates according to APC provider specific wage index."

Response Submitted by: The Hartford

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
September 14, 2011	Outpatient Hospital Services	\$2,116.19	\$30.80

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated October 11, 2011

- W1 – WORKERS COMPENSATION STATE FEE SCHEDULE ADJUSTMENT.
- 217 – NO MAXIMUM ALLOWABLE DEFINED BY FEE GUIDELINE. REIMBURSEMENT MADE BASED ON

INSURANCE CARRIER FAIR AND REASONABLE REIMBURSEMENT METHODOLOGY.

Explanation of benefits dated January 20, 2012

- 217 – NO MAXIMUM ALLOWABLE DEFINED BY FEE GUIDELINE. REIMBURSEMENT MADE BASED ON INSURANCE CARRIER FAIR AND REASONABLE REIMBURSEMENT METHODOLOGY.

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 29881 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0041, which, per OPPS Addendum A, has a payment rate of \$2,064.02. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,238.41. This amount multiplied by the annual wage index for this facility of 0.956 yields an adjusted labor-related amount of \$1,183.92. The non-labor related portion is 40% of the APC rate or \$825.61. The sum of the labor and non-labor related amounts is \$2,009.53. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,025, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. The OPPS Facility-Specific Impacts file does not list a cost-to-charge ratio (CCR) for this provider. The requestor did not submit documentation of the facility CCR for consideration in this review. Per Medicare policy, when the provider's CCR cannot be determined, the CCR is estimated using the statewide average CCR as found in Medicare's OPPS Annual Policy Files. Medicare lists the Urban Texas 2011 Default CCR as 0.2157. This ratio multiplied by the billed charge of \$6,950.00 yields a cost of \$1,499.12. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$2,009.53 divided by the sum of all APC payments is 100.00%. The sum of all packaged costs is \$1,132.86. The allocated portion of packaged costs is \$1,132.86. This amount added to the service cost yields a total cost of \$2,631.98. The cost of these services exceeds the annual fixed-dollar threshold of \$2,025. The amount by which the cost exceeds 1.75 times the OPPS payment is \$0.00. The total Medicare facility specific reimbursement amount for this line is \$2,009.53. This amount multiplied by 200% yields a MAR of \$4,019.06.
 - Per Medicare policy, procedure code 29875 may not be reported with procedure code 29881 billed on the same claim. Requestor billed 29875, 59RT. Medicare's CCI edits indicate whether a service billed is considered a component procedure of another service provided on the same day. CCI edits may be found at <http://www.cms.gov>. Review of the CCI public files, along with the medical bill provided by the party's finds that Procedure 29875 is a component procedure of another service (29881) billed on the same day and the use of the -59 modifier is not supported. Separate payment is not recommended.

- Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.94. 125% of this amount is \$13.67. Reimbursement is the lesser of the MAR or the provider's usual and customary charge of \$10.00. The lesser amount is \$10.00.
 - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75
 - Procedure code 80048 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$11.91. 125% of this amount is \$14.89
 - Per Medicare policy, procedure code 93005 may not be reported with procedure code 29875 billed on the same claim. Payment for this service is included in the payment for the primary procedure. Separate payment is not recommended.
3. The total allowable reimbursement for the services in dispute is \$4,047.70. This amount less the amount previously paid by the insurance carrier of \$4,016.90 leaves an amount due to the requestor of \$30.80. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$30.80.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$30.80, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
